### **Chapter 11**

### **Labor and Employment**

Data on labor and employment are critical inputs in the formulation of policies aimed at providing adequate employment opportunities and productive activities to the country's labor force. The labor force is the backbone of the economy. This single factor alone speaks of a vital sector that plays a crucial role in the development of the nation and the upliftment of the economic well-being of the people. Data on the situation obtaining in the workplace are also necessary in enhancing policies and programs of government towards promoting harmonious labor relations and productivity. The generation of adequate, timely and reliable data is an imperative need of the formulators and implementers of our laws, policies and decisions.

This chapter presents data on the number and employment status of the labor force at the regional level. The data presented include labor statistics by sex, class of worker, major industry group, type of industry, major occupation group, number of hours worked and highest grade completed. Data on labor relations and workers' welfare, which include the number of registered job applicants in the Public Employment Service Office (PESO) and number of workers terminated due to closures/retrenchments, are also presented. The basic sources of data are the Philippine Statistics Authority (PSA) and the Department of Labor and Employment (DOLE). The PSA generates data on the labor force and its employment status using the results of its quarterly Labor Force Surveys.

Table 11.9
NUMBER OF ESTABLISHMENTS RESORTING TO PERMANENT CLOSURE/RETRENCHMENT DUE TO ECONOMIC REASONS AND DISPLACED WORKERS, CALABARZON
2015 - 2021

| Indicator                                  | 2015   | 2016   | 2017   | 2018   | 2019   | 2020    | 2021   |
|--|--------|--------|--------|--------|--------|---------|--------|
| Establishments Reporting Displaced Workers | 319    | 1,178  | 1,114  | 1,319  | 1,371  | 14,216  | 1,439  |
|  | 22,351 | 46,942 | 23,400 | 46,715 | 55,112 | 380,749 | 41,482 |

Note: Numerous incidences of establishments resorting to permanent closure or retrenchment were unreported from the period of 2011-2013, which is responsible for the seemingly abrupt increase of figures in the latter years. The Department has started strengthening the monitoring of the establishments' compliance in 2014.

In 2016-2017, some establishments resorted to closure or retrenchment due to the Department's new policy/regulation banning "endo" and "labor-only" contracting practices.

In 2020, many establishments resorted to closure due to the COVID-19 pandemic.

# Chapter 12 Social Services

**D**ata on social welfare serve as indicators of the results and impacts of goals, policies and programs on human development. This universal concern emphasizes people's empowerment and the care, protection and rehabilitation of the disadvantaged and special sectors of society. These sectors are the primary target clienteles of our social welfare policies and programs. The objective is to place the disadvantaged sectors of society in the mainstream of productive and economic processes. Specifically, this entails converting the disadvantaged groups into active agents and partners in development. In this manner, the fruits of growth and progress will pervade all sectors of society and the disadvantaged sectors will become beneficiaries of development. The government's Social Reform Agenda (SRA) redirects the thrusts and focus and widens the target beneficiaries of the package of programs and other interventions implemented by government, private and non-governmental institutions. In contributing to the goals of social welfare and development, the generation of data and relevant indicators is therefore of utmost necessity. The SRA, for one, underscores the need to strengthen and improve existing systems for generating data.

This chapter presents data at the regional and provincial levels on the number of clients served by the various outreach and service programs of the Department of Social Welfare and Development. The department, which is the source of data, compiles the information based on its administrative reporting systems. This chapter also contains data on the number of disabled persons by type of disability. The Philippine Statistics Authority processed the data based on the results of the Census of Population and Housing.

Note: \* No breakdown but served NDA-no data available

<sup>\*\*</sup> No out of school youth was served by the Implementation of Immersion Outreach Program (IOP) for CY 2020 due to the COVID-19 pandemic and the declaration of the public health emergency. This was an agreement during the consultation meeting with the Regional Youth Focal Persons (RYFP's). Hence, the next step identified is to enhance the existing guidelines of the program to ensure that despite the emergency, the Department can still serve and support the needs of the youth sector.

#### Notes:

2020-2021\* Listahanan 3, results of the Household Assessment will be released by second semester of CY 2022.

<sup>&</sup>lt;sup>1</sup>Individuals may be identified with more than one type of functional difficulty thus, the sum of each type is not equal to the total number of individuals with functional difficulty

<sup>&</sup>lt;sup>2</sup>Difficulty/problem in seeing, even when wearing eyeglasses

<sup>&</sup>lt;sup>3</sup>Difficulty/problem in hearing, even when using a hearing aid

<sup>&</sup>lt;sup>4</sup>Difficulty/problem in self-caring such as bathing or dressing

<sup>&</sup>lt;sup>5</sup>Difficulty/problem in communicating using his/her usual language

#### **Chapter 13**

#### **Transportation and Communication**

Data on the extent and coverage of the transportation and communication networks of an area are essential. The data provide the planners and decision makers in the government and in entrepreneurial ventures with a sound basis to improve the state of their infrastructures. Specifically, planners use the data in the formulation of strategies that will link the locality with its neighbors within and outside the country. The different mode of transportation and channels and media for communication are vital in the economic, social and cultural lives of peoples and institutions in the community. A well-developed transportation system ensures fast and efficient transfer of goods and services between traders, households and other institutions within and outside the geographical limits of the community. Similarly, breakthrough in the communication system accelerates the flow of information. This era of information technology enables a faster access to and dissemination of news, events and developments in the domestic and international scene. The business community receives vital information that can expand the market for their products and services. The continuous provision of data on the transportation and communication systems of an area therefore becomes indispensable in charting the course towards socioeconomic development and cultural upliftment of the area.

This chapter presents data on modes of transportation at the regional and provincial levels. On the land transport, the data presented include the registration of motor vehicles and permits/licenses issued by the Land Transportation Office. The data presented also include the road length and the number and length of bridges. The Department of Public Works and Highways is the source of data. For the communication sector, the chapter provides data on the number of telecommunication facilities, licensed radio stations, telephone distribution, post offices and volume of mail handled. The sources of the data are the National Telecommunication Commission and the Philippine Postal Corporation.

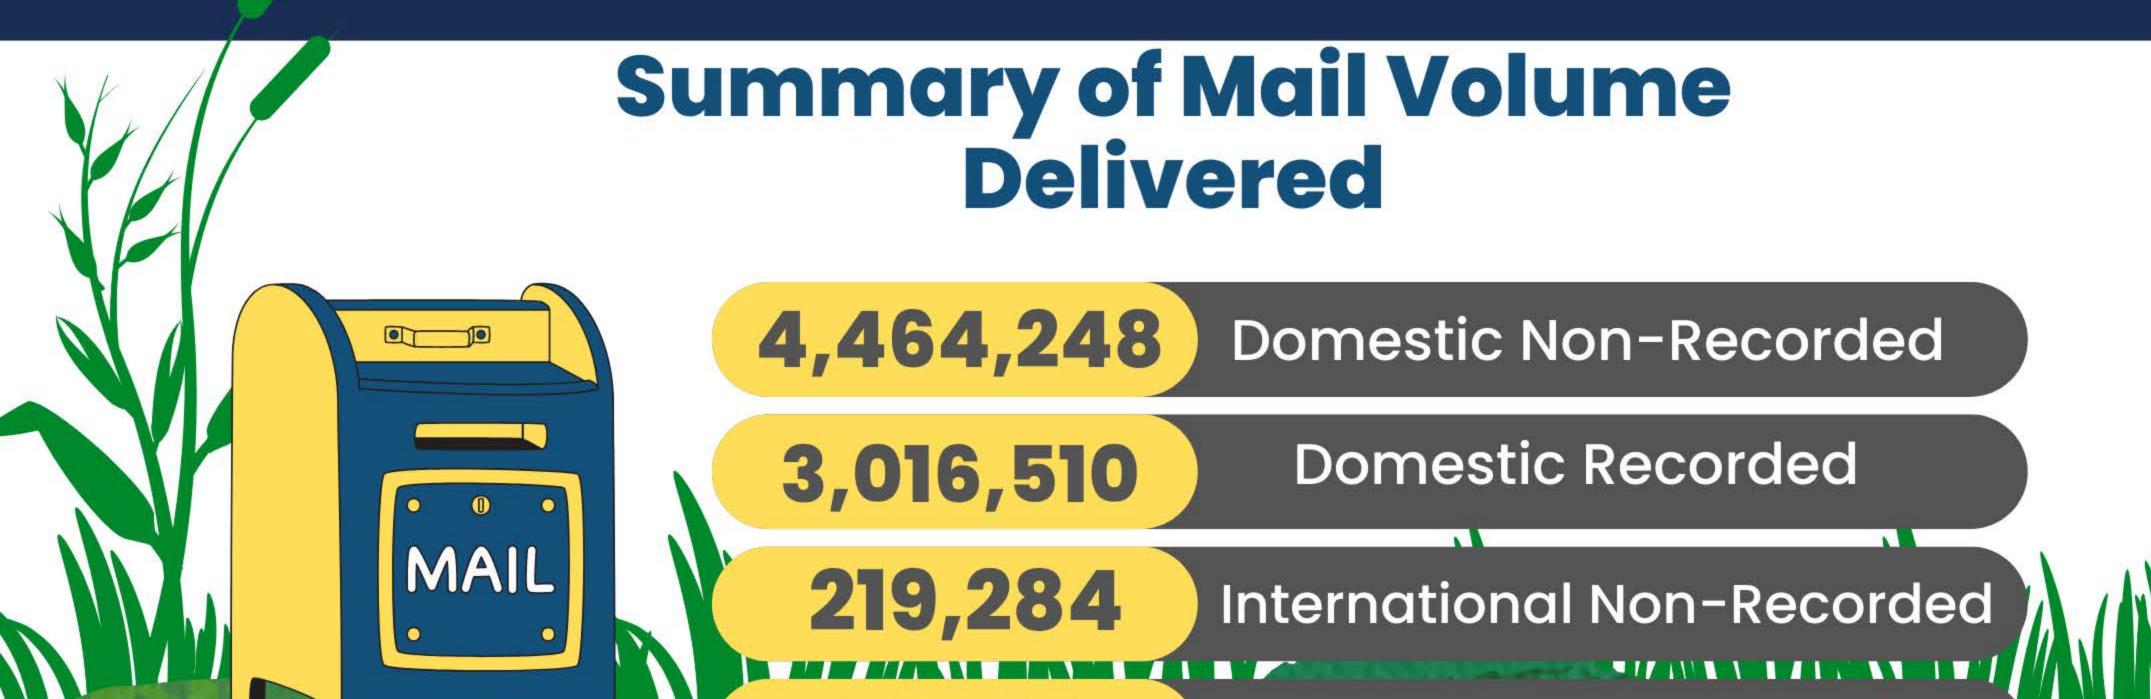

#### **STATISTICAL TABLES:**

| Table 13.1 | Number of Motor Vehicles Registered, New and Renewal,                              | 13-5  |

#### **Chapter 14**

#### **Energy and Water Resources**

Data on energy and water resources are vital inputs to national and local programs of government. The business/industry sector also uses the data in the preparation of feasibility studies and in investment planning. The importance of these resources in countryside development is recognized in many ways. Energy and water are essential resources in countryside development are recognized in many institutions operating locality. These resources are also vital in the day-to-day lives of individuals residing in the community. Considering the multifarious uses of these resources, the data on the level, extend, sources and utilization of energy and water provide signals on the potentials of the area to achieve growth and development. The data also serve as indicators of the standard of living of families comprising the community.

This chapter presents regional and provincial data on power and irrigation. Specifically, the data on power include the number of municipalities/barangays energized; power distributed and service connections by electric cooperatives. The data on irrigation include the number, service area, irrigator's associations and farmer beneficiaries of irrigation systems. The data sources for energy and irrigation are the National Electrification Administration, Department of Energy-Electric Power Industry Management Bureau and National Irrigation Administration.

## EXISTING NATIONAL IRRIGATION SYSTEMS IN CALABARZON, 2018-2021

The Number of National Irrigation Systems remains at 39 and the Number of Irrigators' Association remains at 82 from the years 2018 to 2021.

Service Area: 29,428

Farmer Beneficiaries: 16,300

Service Area: 29,428

Farmer Beneficiaries: 14,753

Service Area: 29,092

Farmer Beneficiaries: 16,334

Service Area: 29,034

Farmer Beneficiaries: 16,989

#### **Chapter 15**

#### **Public Administration**

Data on the levels, patterns and distribution of the income and expenditure of local government units (LGUs) are essential in measuring their capabilities to provide public service to their constituents. Specifically, the level of income serves as a criterion in the classification of LGUs. The classification, on the other hand, provides a yardstick in the allocation of resources and other forms of assistance. Furthermore, the data provide a sound and logical basis in the choice of alternative options aimed at balancing the sources and disposition of resources. The data are also useful in identifying priority program areas and localities in the community.

This chapter presents data on the statement of income and expenditure of local governments. The said data is provided by the Bureau of Local Government Finance of the Department of Finance. The Bureau of Internal Revenue, on the other hand, provided data on internal revenue collections of LGUs. Data on the number of precincts and registered voters from the Commission on Elections are also presented.

### Chapter 16 Money and Banking

Data pertaining to the operations of financial institutions provide indicators of the area's economy. The growth in the number of banking institutions operating in a certain locality gives insights on the pace at which business and trade grows. Data on loans granted by banks provide a picture of the level and nature of investments put up over time. Statistics on outstanding loans of financial institutions, on the other hand, serve as signal of the rate of turnover of investments. The money and banking sector plays a vital role in the development of productive activities by proprietors or corporate institutions in the area. The presence and accessibility of establishments providing these services to existing and prospective investors contribute to the realization of programs and projects aimed at industrial and entrepreneurial advancement.

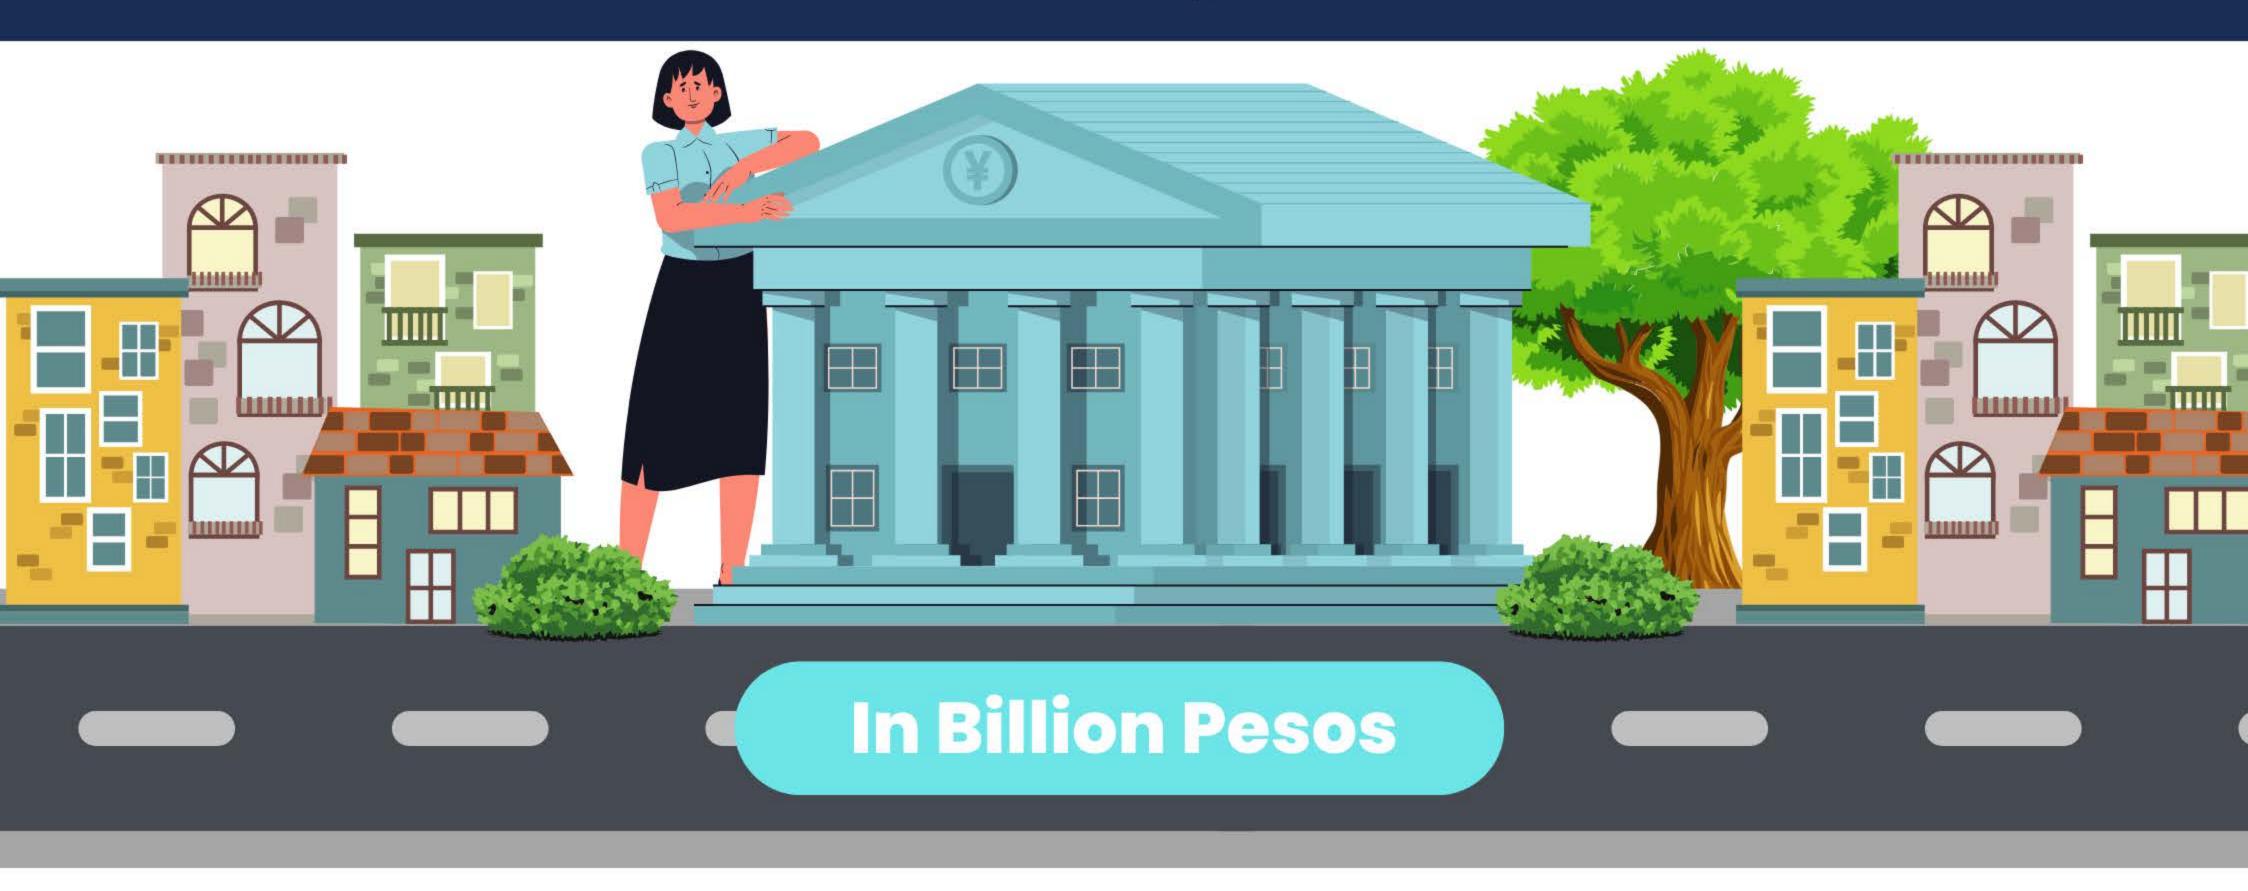

This chapter presents data on the number of offices of the financial system in the region, loan portfolio, operating and interest income and interest expenses by type of banks. The source of data is the Bangko Sentral ng Pilipinas.

### **Chapter 17**

### **Public Order, Safety and Justice**

Data on public order, safety and justice reflect the effectiveness, efficiency and fairness in the administration and enforcement of laws. The basic goal of the government is to establish a peaceful, stable and just environment conducive to national growth and development. A society where peace, order and law prevail is not only a goal or a vision. It forms one of the pillars of man's basic rights. Development that is not coupled with order, safety and justice contribute to the degradation of society. The effects of public order, safety and justice in national well being and in every fiber of the social and economic lives of individuals are priority concerns of governance. In this light, an information system that generates timely and reliable data becomes necessary tool in the administration of justice and enforcement of laws as well as to aid legislation.

This chapter presents regional and provincial data on crimes, number of policemen and firemen, and fire incidences, including deaths, injuries and property damages. This also includes data on disaster risk reduction and management. The sources of data are the Police Regional Office for data on crimes and law enforcers, Bureau of Fire Protection for fire incidences and fire personnel and the Office of Civil Defense for disaster risk reduction and management.

| Quezon        | 703             | 101    | 25       | 102                | 175   | 77      | 199      | 17          | 7             |

Note: As per new directive of the Chief PNP that CY 2014 was adjusted, whereas all traffic incidents were transferred in the non-index crime. As compared to the CY 2013 the traffic incident was included under the index crimes

Since CY 2016, data was based on the Crime Statistics handled by Police Station and was generated from Crime Information Reporting and Analysis System (CIRAS), a new database system used by the PNP. The CIRAS is an electronic database system that facilitated crime documentation and systematic data storage, a quick, fast and reliable transmission of crime information from different police station.

The PNP now are focused on the data reflected above known as FOCUS CRIMES excluded the data from OLEA and Brgy. Starting July 1, 2019, Special Complex Crimes was included as part of Index Crimes in replacement to Anti-Cattle Rustling as the latter was downgraded into non - index crime based on PNP MC 2018 - 050.

Note: As per new directive of the Chief PNP that CY 2014 was adjusted, whereas all traffic incidents were transferred in the non-index crime. As compared to the CY 2013 the traffic incident was included under the index crimes.

The PNP now are focused on the data reflected above known as FOCUS CRIMES excluded the data from OLEA and Brgy.

Data used in crimes solved was crime cleared wherein the suspect was identified and appropriate was filed but either at-large or arrested.

## **Chapter 18 Science and Technology**

Science and technology plans and programs call for sound and comprehensive information on the scientific and technical potential of the region. A comprehensive database on the flows and stocks of scientific and technological resources in the region is critical in monitoring progress of STI goals and in guiding the formulation of more effective S&T policies and programs that optimize the benefits of STI in a knowledge-based economy. Statistics regard technologies are valuable in monitoring the adoption of end users, which can improve productive capacity. Data on government's technology transfer and dissemination show its response to the region's development strategy of using Science and Technology for identified beneficiaries.

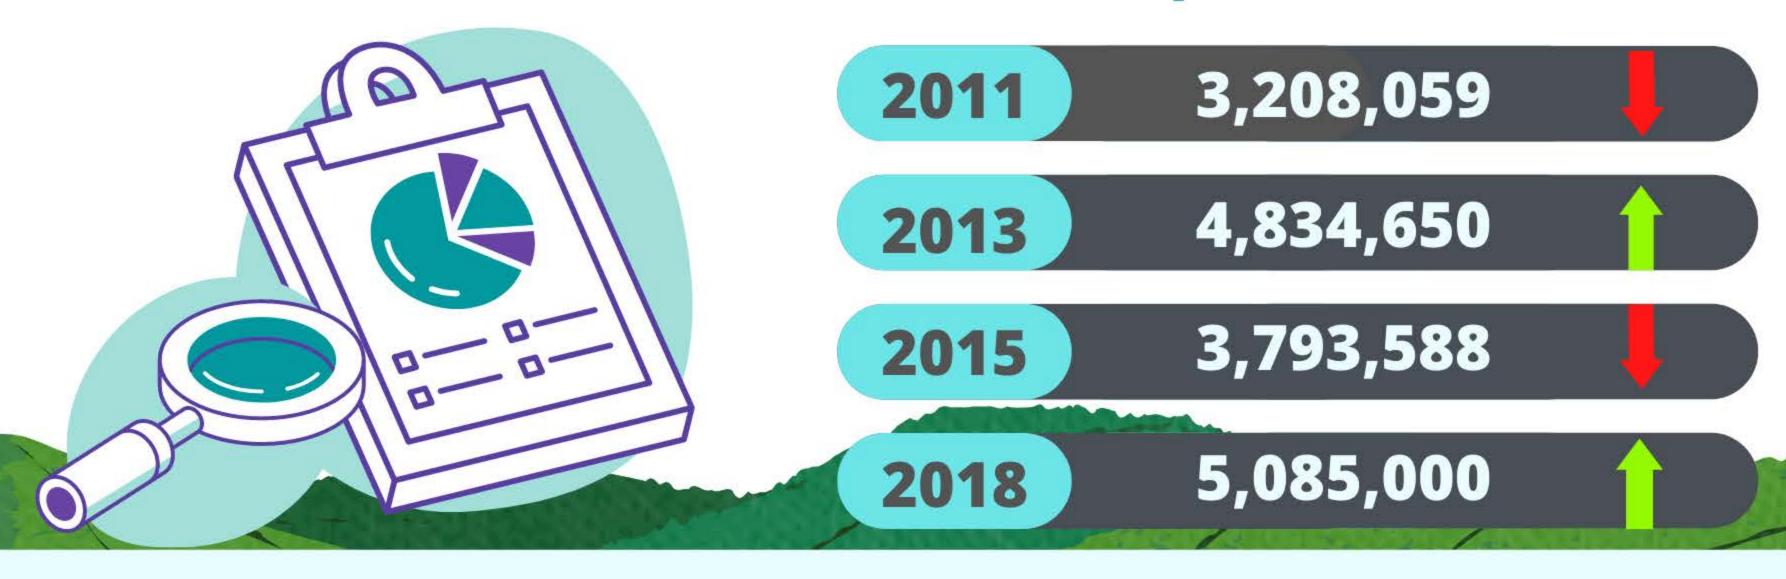

This chapter deals with the statistical data and indicators that measure and monitor activities and developments in the STI sector through the data from the Department of Science and Technology.

| Vital, Health and Nutrition        | Appendix-16 |

#### **Glossary of Terms**

#### **AGRICULTURE**

Agricultural Production- the growing field crops, fruits, nuts, seeds, tree nurseries (except those of forest trees), bulb vegetables and flowers, both in the open and under glass; and the production of coffee, tea, cocoa, rubber; and the production of livestock and livestock products, honey rabbits, furbearing animals, silkworm, cocoons, etc. Forestry and fishery activities carried on as an ancillary activity on an agricultural holding is also considered as agricultural production. (Bureau of Agricultural Statistics)

**Aquaculture –** sector of fisheries that includes the rearing or raising under controlled conditions of aquatic products such as fish, oysters, mussels, sea weeds and other aquatic resources in sea, lakes and rivers. Examples are fishponds, fish pens and fish cages. (**Bureau of Agricultural Statistics**)

**Commercial Fishing –** sector of fisheries that includes the catching of fish in marine waters with the use of fishing boat of more than three (3) gross tons. (**Bureau of Agricultural Statistics**)

**Municipal Fishing** – sector of fisheries that includes the catching of fish in marine and inland waters with the use of fishing boat of three (3) gross tons or less, or using gear not requiring the use of boats. (**Bureau of Agricultural Statistics**)

#### **BANKING AND FINANCE**

**Assets** - are economic resources that are controlled by the company/entity and whose cost at the time of acquisition could be objectively measured.

Commercial Banks - any corporation which, in addition to the general powers incident to corporations, shall have all such powers as shall be necessary to carry on the business of commercial banking, by accepting drafts and issuing letters of credits, by discounting and negotiating promissory notes, drafts, bills of exchange, and other evidences of debts, by receiving deposits, by buying and selling foreign exchange and gold or silver bullion, and by lending money against securities consisting of personal property or first mortgage on improved real estates and the insured improvements thereon.

**Deposit Liability -** money received by bank from people or companies which shall be paid back by the bank in the future.

**Demand Deposits -** otherwise known as current or checking accounts, subject to withdrawal by check and are non-interest bearing. These are sub-divided into demand-deposits of private firms and individuals, banks, the government and Trust Department of Banks.

**Loan Portfolio –** total of all loans held by a bank of finance company on a given period. It may be loan that have been made or bought and are being held for repayment.

**Rural Banks** - government-sponsored/assisted banks which are privately managed and largely privately owned that provide credit facilities to farmers and merchants, or to cooperatives of such farmers or merchants at reasonable terms and in general; to the people of the rural community.

**Savings Bank** - any corporation organized for the purpose of accumulating the small savings of depositors and investing them, together with its capital, in bonds or in loans secured by bonds, real estate mortgage, and other forms of security, as hereinafter provided, or in loans for personal finance and long-term financing for home building and home development.

**Savings Deposits** - these include all interest-bearing deposits which are withdrawals upon presentation of an accomplished withdrawal slip together with the passbook. These are subdivided into savings deposits of private firms, individuals, banks, the government and trust department of banks.

**Time Deposits** - these represent deposits which are interest bearing with specific maturity dates and evidenced by certificates issued by the bank in the name of the depositor. These are subdivided into time deposits of private firms, individuals, banks, the government and trust department of banks.

#### **ECONOMIC ACCOUNTS**

**Constant Prices (at constant prices) –** valuation of transactions, wherein the influence of price changes from the base year to the current year has been removed.

Gross Domestic Capital Formation - Consists of two major components:

- gross fixed capital formation and
- change in stocks.

Gross fixed capital formation refers to outlays on construction, durable equipment and breeding stocks, orchard development and afforestation. Change in stocks refers to the difference between ending and beginning inventories. Inventories or stocks consists of finished goods, work-in-progress, and raw materials, which have been produced or purchased but not yet sold or consumed as intermediate inputs during the accounting period. (Source: Manual on the Philippine System of National Accounts: Framework, Sources and Methods)

**Expenditure on the GDP** - Sum of the final uses of goods and services in the economy. Final uses refer to the values at purchaser's prices of goods and services used for the final consumption of households and private non-profit institutions, general government both national and local government units, as well as those used for gross fixed capital formation by both public and private enterprises and for exports (net of imports) to the rest of the world. (Source: Analysis of the Revised PSNA and Manual on the Frameworks, Source and Methods)

**Gross Domestic Product** - the value of all goods and services produced domestically; the sum of gross value added of all resident institutional units engaged in production (plus any taxes, and minus any subsidies, on products not included in the values of their outputs).

**Gross Regional Domestic Product** - aggregate of the gross value added or income from each industry or economic activity of the regional economy.

**Gross Value Added** – the difference between gross output and intermediate inputs. Gross outputs of a production unit during a given period is equal to the gross value of the goods and services produced during the period and recorded at the moment they are produced, regardless of whether or not there is a change of ownership. Intermediate inputs refer to the value of goods and services used in the production process during the accounting period.

**Household Final Consumption Expenditures -** consist of actual and imputed expenditures of both individual and institutional households, as well as non-profit institutions serving households for the purpose of acquiring individual consumption goods and services.

**Personal Consumption Expenditures -** consist of actual and imputed expenditures of households for the purpose of acquiring individual consumption goods and services.

Source: 1993 System of National Accounts developed by the Commission of the European Communities, International Monetary Fund, Organisation for Economic Cooperation and Development, United Nations and World Bank.

#### EDUCATION AND MANPOWER DEVELOPMENT

**Basic or Simple Literacy -** the ability to read and write with understanding simple messages in any language or dialect. (**National Statistics Office**)

**Cohort Survival Rate** \*\*\*\*\*\* - the percentage of enrollees at the beginning grade or year in a given school year who reached the final grade or year of the elementary of secondary level.

**Elementary Education -** the first stage of free and compulsory, formal education primarily concerned with providing basic education and usually corresponding to six and seven grades. Elementary education can likewise be attained through alternative learning system.

**Enrolment** \*\*\*\*\*- total number of pupils/students who register/enlist in a school year.

**Higher Education -** the stage of formal education requiring secondary and post-secondary education covering the programs on: (a) all courses of study leading to bachelor's degree and (b) all degree courses of study beyond bachelor's degree level.

**Literacy rate, Simple/Basic** \*\*\*\*\*\* - the percentage of the population 10 years old and over, who can read, write and understand simple messages in any language or dialect.

**Participation Rate** \*\*\*\*\*\* - the ratio of the enrolment for the age group corresponding to the official school age in the elementary/secondary level to the population of the same age group in a given year. Also known as Net Enrolment Ratio (NER).

**Post Secondary/Non-Degree Education** - the stage of formal education following the secondary level covering non-degree programs that have varying duration from three (3) months to three (3) years, concerned primarily with developing strong and appropriately trained middle-level skilled manpower possessing capabilities supportive of national development.

**Pre-School** - a school that admits students who are not old enough to enter the first level of education. These pupils are usually from 4 to 5 years of age. (**Department of Education**)

**Private Institutions/Schools** - educational institutions maintained and administered by private individuals or groups.

**Public Institutions/Schools** - educational institutions established by law and administered by the government.

**Secondary School -** an educational institution offering secondary education usually consisting of a four-year general secondary curricula. (**Department of Education**)

**Secondary Education** - the stage of formal education following the elementary level concerned primarily with continuing basic education and expanding it to include the learning of employable gainful skills, usually corresponding to four years of high school.

**School Year -** the prescribed period of time, when schools offer daily instruction broken by short intermission periods (e.g., Christmas and summer vacations and holidays).

**Technical Education** – the education process designed at post-secondary and tertiary levels, officially recognized as non-degree programs aimed at preparing technicians, para-professionals and other categories of middle-level workers by providing them with a broad range of general education, theoretical, scientific, artistic and technological studies, social services and related job skills training.

#### **ENERGY AND WATER RESOURCES**

**Distribution of Electricity -** Refers to the conveyance or delivery of electricity by a distribution utility to end-users.

**Electric Cooperative -** Refers to a cooperative or corporation authorized to provide electric service pursuant to Presidential Decree No. 269, as amended, or Republic Act No. 6938.

**National Electrification Administration (NEA)** - Refers to the government agency created under Presidential Decree No. 269, to act as a catalyst for the development of electric distribution utilities (EDUs) by providing world-class financial intermediation institutional and technical services.

#### **ENVIRONMENT AND NATURAL RESOURCES**

**Charcoal** - solid product obtained from the destructive distillation and/or thermal degradation of wood. (Forest Management Bureau)

**Forest\*** – refers to land with an area of more than 0.5 hectare and tree crown cover (or equivalent stocking level) of more than 10 percent. The trees should be able to reach a minimum height of 5 meters at maturity in situ. It consists either of closed forest formations where trees of various storeys and undergrowth cover a high proportion of the ground or open forest formations with a continuous vegetation cover in which tree crown cover exceeds 10 percent. Young natural stands and all plantations established for forestry purposes, which have yet to reach a crown density of more than 10 percent or tree height of 5 meters are included under forest.

These are normally forming part of the forest area, which are temporarily unstocked as a result of human intervention or natural causes but which are expected to revert to forest. It includes forest nurseries and seed orchards that constitute an integral part of the forest; forest roads, cleared tracts, firebreaks and other small open areas; forest within protected areas; windbreaks and shelter belts of trees with an area of more than 0.5 hectare and width of more than 20 meter; plantations primarily used for forestry purposes, including rubber wood plantations. It also includes bamboo, palm and fern formations (except coconut and oil palm). (Reference: Food and Agriculture Organization, 2000)

Forest Land - includes the public forest, the permanent forest or forest reserves, and forest reservations. (Forest Management Bureau)

**Forest Product** - all usable raw materials yielded by the forest including the associated water, fish, game, scenic, historical, recreational and geologic resources. (**Forest Management Bureau**)

**Log** - felled trees bucked into convenient length of at least 1.5 meters, with at least 15 cm. in diameter. It may either be poles, piles, pulpwood, sawlog or veneer log. (**Forest Management Bureau**)

**Lumber -** solid wood not further manufactured other than sawing, resawing and passing lengthwise through a standard planing machine crosscut to length. (**Forest Management Bureau**)

**National Park** – refers to a forest reservation essentially of primitive or wilderness character which has been withdrawn from settlement or occupancy and set aside as such exclusively to preserve the scenery, the natural and historic objects and the wild animals or plants therein, and to provide enjoyment of these features in such a manner as will leave them unimpaired for future generations. (**Protected Areas and Wildlife Bureau**)

**Non-Timber Forest Product** - includes all forest products except timber; also known as minor forest product. (**Forest Management Bureau**)

**Rainfall** (mm) - the amount of precipitation (rain, hail, etc.) expressed in millimeter depth, of the layer of water which has fallen. (**Philippine Atmospheric, Geophysical and Astronomical Services Administration**)

**Temperature** (°C) – a measurement of the average kinetic energy of molecules in an object or system and can be measured with a thermometer or calorimeter. (**Philippine Atmospheric, Geophysical and Astronomical Services Administration**)

**Timberland** – refers to land of the public domain which has been the subject of the present system of land classification determined to be needed for forest purposes. Eventually, these lands will be proclaimed as forest reserves by the President. (**Forest Management Bureau**)

#### **TRADE**

**Export** - all goods leaving the country which are properly cleared through the Customs. (National Statistics Office)

**Free on Board (F.O.B.) Value** - the value of the goods free on board the carrier at the frontier of the exporting country. It includes inland freight, export duty and other expenses. Ocean freight, insurance and consular fee are, however, excluded. **(National Statistics Office)** 

**Import** - all goods entering any of the seaports or airports of entry of the Philippines properly cleared through the Customs or remaining under Customs control, whether the goods are for direct consumption, for merchanting, for warehousing or for further processing. (National Statistics Office)

#### **INCOME AND PRICES**

**Consumer Price Index (CPI)\*\*\*** - Indicator of the change in the average prices of a fixed basket of goods and services commonly purchased by households relative to a base year.

**Family** – is a group of persons usually living together and composed of the head and other persons related to the head by blood, marriage and adoption. A single person living alone is considered a separate family. **(2000 FIES, National Statistics Office (NSO))** 

Family Expenditures – refers to the expenses or disbursements made by the family purely for personal consumption during the reference period. They exclude all expenses in relation to farm or business operations, investment ventures, purchase of real property and other disbursements which do not involve personal consumption. Gifts, support, assistance or relief in goods and services received by the family from friends, relatives, etc. and consumed during the reference period are included in the family expenditures. Value consumed from net share of crops, fruits and vegetables produced or livestock raised by other households, family sustenance and entrepreneurial activities are also considered as family expenditures. (2000 FIES, NSO)

**Family Income** – includes primary income and receipts from other sources received by all family members during the calendar year as participants in any economic activity or as recipients of transfers, pensions, grants, etc. **(2000 FIES, NSO)**Primary income includes:

- Salaries and wages from employment.
- Commissions, tips, bonuses, family and clothing allowance, transportation and representation allowance and honoraria.
- Other forms of compensation and net receipts derived from the operation of family-operated enterprises/activities and the practice of profession or trade.

Income from other sources include:

- Imputed rental values of owner-occupied dwelling units.
- Interests.
- Rentals including land owner's share of agricultural products
- Pensions
- Support and value of food and non-food items received as gifts by the family (as well as the imputed value of services rendered free of charge to the family).
- Receipts from family sustenance activities, which are not considered as family operated enterprise.

**Gini Ratio** \*\*\*\*\*\*\* - the ratio of the area between the Lorenz curve and the diagonal (the line of perfect equality) to the area below the diagonal.

Notes: It is a measure of the extent to which the distribution of income/ expenditure among families/individuals deviates from a perfectly equal distribution, with limits 0 for perfect equality and 1 for perfect inequality.

Inflation Rate - the annual rate of change or the year-on-year change in the Consumer Price Index.

**Magnitude of the Poor** - the number of families or the population whose annual per capita income falls below the poverty threshold.

**Poverty Incidence (PI)** \*\*\*\*\*\* - the proportion of families/individuals with per capita income / expenditure less than the per capita poverty threshold to the total number of families/individuals.

**Poverty Incidence Among Children** - proportion of children in families with per capita income less than the per capita poverty threshold to the total number of children.

**Child -** individual below 18 years old (RA 7610, Special Protection of Children Against Abuse, Exploitation and Discrimination Act)

**Poverty Incidence Among Employed** - proportion of employed in families with per capita income less than the per capita poverty threshold to the total number of employed.

**Employed** – individuals who are 15 years old and over, who during the reference period are reported either at work or with a job but not at work.

**Poverty Incidence Among Farmers** - proportion of farmers in families with per capita income less than the per capita poverty threshold to the total number of farmers.

**Farmers** – employed individuals 15 years old and over whose primary occupation is farming, plant growing or animal production.

**Poverty Incidence Among Fishermen -** proportion of fishermen in families with per capita income less than the per capita poverty threshold to the total number of fishermen.

**Fishermen**- employed individuals 15 years old and over whose primary occupation is fishing.

**Poverty Incidence Among Individuals Residing in Urban Areas** - proportion of individuals residing in urban areas and in families with per capita income less than the per capita poverty threshold to the total number of individuals residing in urban areas.

**Poverty Incidence Among Migrant and Formal Sector Workers -** proportion of migrant and formal sector workers in families with per capita income less than the per capita poverty threshold to the total number of migrant and formal sector workers.

**Migrant and formal sector worker –** individuals who are Overseas Contract Workers (OCW) or Workers other than OCWs or employed persons working for private establishments and government organizations and corporations.

**Poverty Incidence Among Self-employed and Unpaid Family Workers** - proportion of self-employed and unpaid family workers in families with per capita income less than the per capita poverty threshold to the total number of self-employed and unpaid family workers.

**Self-employed and Unpaid family worker** – individuals 15 years and over who are either self-employed or worked without pay on family -owned farm or business.

**Poverty Incidence Among Senior Citizen-** proportion of senior citizens in families with per capita income less than the per capita poverty threshold to the total number of senior citizens.

**Senior Citizen** - individual aged 60 years and above (RA 9257, Expanded Senior Citizens Act)

**Poverty Incidence Among Women** - proportion of women in families with per capita income less than the per capita poverty threshold to the total number of women.

**Poverty Incidence Among Youth** - proportion of youth in families with per capita income less than the per capita poverty threshold to the total number of youth.

Youth - individuals aged 15 to 30 years old (RA 8044, The Youth in Nation-Building Act)

**Poverty Threshold (PT)** \*\*\*\*\*\* - the minimum income/expenditure required for a family/individual to meet the basic food and non-food requirements.

Notes: Basic food requirements are currently based on 100% adequacy for the Recommended Energy and Nutrient Intake (RENI) for protein and energy equivalent to an average of 2000 kilocalories per capita, and 80% adequacy for other nutrients. On the other hand, basic non-food requirements, indirectly estimated by obtaining the ratio of food to total basic expenditures from a reference group of families, cover expenditure on: 1) clothing and footwear; 2) housing; 3) fuel, light, water; 4) maintenance and minor repairs; 5) rental of occupied dwelling units; 6) medical care; 7) education; 8) transportation and communication; 9) non-durable furnishings; 10) household operations; and 11) personal care & effects.

**Purchasing Power of the Peso\*\*\*** - a measure of the real value of the peso in a given period relative to a chosen reference period. It is computed by getting the reciprocal of the CPI and multiplying the result by 100

#### **INDUSTRY**

**Establishment** – an economic unit which engages in one or predominantly one kind of economic activity at a fixed single physical location. (National Statistics Office)

**Investments** - amount of money or other resources measured in terms of money placed on activities or other forms of assets for the purpose of earning profits. (Board of Investment)

#### LABOR AND EMPLOYMENT

**Actual Strike** - any temporary stoppage of work by the concerted action of the employees as a result of an industrial or labor dispute. This may include slow down, boycott, sit-down, mass leave, attempts to damage, destroy or sabotage plant equipment and facilities and similar activities:

- Boycott concerted action by employees and their union to refrain from working with the establishment
- Mass Leave concerted work stoppage where the union or the workers avail en masse of their paid leaves under their Collective Bargaining Agreement (CBA) or by law or where said workers/union go on massive Absence Without Official Leave (AWOL)
- **Sit-down** concerted work stoppage where workers refuse to work inside a factory or establishment after punching their time cards

**Collective Bargaining Agreement (CBA)** – the negotiated contract between a legitimate labor organization and the employer concerning wages, hours of work, and all other terms and conditions of employment in a bargaining unit, including mandatory provisions for grievance and arbitration machinery. (Bureau of Labor and Employment Statistics)

**Employed** - include all those who, during the reference period are 15 years old and over as of their last birthday and are reported either:

**At work.** Those who do any work even for one hour during the reference period for pay or profit, or work without pay on the farm or business enterprise operated by a member of the same household related by blood, marriage or adoption; or

**With a job but not at work.** Those who have a job or business but are not at work because of temporary illness/injury, vacation or other reasons. Likewise, persons who expect to report for work or to start operation of a farm or business enterprise within two weeks from the date of the enumerator's visit, are considered employed. **(National Statistics Office)** 

**Employment Rate** - proportion in percent of the total number of employed persons to the total number of persons in the labor force. (National Statistics Office)

**Household** – an aggregate of persons, generally but not necessarily bound by ties of kinship, which live together under the same roof and eat together or share in common the household food. Members comprise the head of the household, relatives living with him and other persons who share the community life for reasons of work or other consideration. A person who lives alone is considered a separate household. **(National Statistics Office)** 

**Labor Force** - the population 15 years old and over whether employed or unemployed who contribute to the production of goods and services in the country. **(National Statistics Office)** 

**Labor Force Participation Rate** – proportion in percent of the total number of persons in the labor force to the total population 15 years old and over. **(National Statistics Office)** 

Man-Days Lost - total number of man-days lost due to strikes or lockouts declared. It is computed by multiplying the number of workers involved in the strike or lockout by the total number of working days lost or made idle due to the strike/lockout. (Bureau of Labor and Employment Statistics)

Notice of Lockout – the notification filed by an employer with the appropriate National Conciliation and Mediation Board (NCMB) regional branch about its intention to temporarily cease its operation because of the allegations by a duly registered labor union of unfair labor practice act/s or because of a deadlock in collective bargaining negotiations. (Bureau of Labor and Employment Statistics)

Notice of Strike – the notification filed by a duly registered labor union with the appropriate NCMB regional branch about its intention to go on strike because of alleged commission by the employer of unfair labor practice act/s or because of a deadlock in collective bargaining negotiations. (Bureau of Labor and Employment Statistics)

**Rural Area -** an area not falling under any of the classifications of an urban area. **(National Statistics Office)** 

**Strike** – any temporary stoppage of work by the concerted action of the employees as a result of an industrial or labor dispute. Includes actual strike (with or without notice) filed at appropriate NCMB regional branches. (Bureau of Labor and Employment Statistics)

**Underemployed** – include all employed persons who express the desire to have additional hours of work in their present job or an additional job, or to have a new job with longer working hours. (National Statistics Office)

**Underemployment Rate** – proportion in percent of the total number of underemployed persons to the total number of employed persons. (National Statistics Office)

**Unemployed\*\*\*\*** - include all persons who are 15 years old and over as of their last birthday and are reported as:

without work, i.e., had no job or business during the basic survey reference period; AND

currently available for work , i.e., were available and willing to take up work in paid employment or self employment during the basic survey reference period, and/or would be available and willing to take up work in paid employment or self employment within two weeks after the interview date; AND

**seeking work**, i.e., had taken specific steps to look for a job or establish a business during the basic survey reference period; OR not seeking workdue to the following reasons: (a) tired/believe no work available, i.e., the discouraged workers who looked for work within the last six months prior to the interview date; (b) awaiting results of previous job application; (c) temporary illness/disability; (d) bad weather; and (e) waiting for rehire/job recall.

**Unemployment Rate** – proportion in percent of the total number of unemployed persons to the total number of persons in the labor force. (National Statistics Office)

**Union** – any registered group or association of employees that exist in whole or in part for the purpose of collective bargaining or of dealing with employers concerning terms and conditions of employment. A union may be formed in the private or public sector. **(Bureau of Labor and Employment Statistics)** 

**Visibly Underemployed Persons** - those who worked for less than 40 hours during the reference period and want additional hours of work

#### POPULATION AND HOUSING

**Household\*\*\*** - a social unit consisting of a person living alone or a group of persons who sleep in the same housing unit and have a common arrangement in the preparation and consumption of food.

**Housing Unit** - a structurally separate and independent place of abode which, by the way it has been constructed, converted or arranged is intended for habitation by one household. Structures or parts of structures which are not intended for habitation such as commercial, industrial, and cultural buildings or natural and man-made shelters such as caves, boats, abandoned trucks, culverts, and others, but which are used as living quarters by households.

**Life Expectancy\*\*\*** - represents the average number of years remaining to a person who survives to the beginning of a given age or age interval x.

**Life Expectancy at Birth\*\*\*** - is defined as the number of years a newborn child can be expected to live under a given mortality condition of an area in a given year

Marital Status\*\*\* - status of an individual in relation to marriage, classified as follows: a) Single - A person who has never been married; b) Married - A couple living together as husband and wife, legally or consensually; c) Divorced - A person whose bond of matrimony has been dissolved legally and who therefore can remarry; d) Separated - A person separated legally or not from his/her spouse because of marital discord or misunderstanding; and e) Widowed - A person whose bond of matrimony has been dissolved by death of his/her spouse.

Medium Assumption - moderate fertility decline and moderate mortality decline

**Migration\*\*\*** - the movement of people across a specific boundary for the purpose of establishing a new or semi-permanent residence. Two distinct types are international migration (migration between countries) and internal migration (migration within a country).

**Population\*\*\*** - total number of individuals in a territory at a specified time. It covers both nationals and aliens, native and foreign-born persons, internees, refugees and any other group physically present within the borders of a country at a specified time. In assembling national demographic statistics for publication, the basic aim has been to obtain data for the physically present (or "de facto") population rather than for the legally established resident (or "de jure") inhabitants.

**Population Density\*\*\*** - refers to the number of persons per unit of land area (usually in square kilometers). This measure is more meaningful if given as population per unit of arable land.

**Population Growth Rate\*\*\*** – indicates how fast a population increases or decreases as a result of the interplay of births, deaths, and migration during a given period of time. Where the population is closed, meaning no migration, the population growth rate is the same as the rate of natural increase, i.e., the difference between the number of births and the number of deaths during a specified period of time. The three methods for computing the rate of growth based on the assumption with respect to the change are: arithmetic change, geometric change and exponential change.

**Population Projections\*\*\*** - computation of future changes in population numbers, given certain assumptions about future trends in the rates of fertility, mortality and migration. Demographers often publish high, medium, and low projections of the same population based on different assumptions of how these rates will change in the future.

**Sex Ratio**\*\*\* - the number of males per 100 females in a population.

**Total Fertility Rate\*\*\*** - the average number of children that would be born alive to a woman (or group of women) during her lifetime if she were to pass through her childbearing years conforming to the age specific fertility rates of a given time period.

#### **PUBLIC ADMINISTRATION**

**Barangay** - the smallest political unit into which cities and municipalities in the Philippines are divided. It is the basic unit of the Philippine political system. It consists of less than 1,000 inhabitants residing within the territorial limit of a city or municipality and administered by a set of elective officials, headed by a barangay chairman (punong barangay).

**City** - there are three classes of cities in the Philippines: the highly urbanized, the independent component cities which are independent of the province, and the component cities which are part of the provinces where they are located and subject to their administrative supervision.

**Extraordinary Income** - collections derived from the repayment of loans and advances made by the government as well as from other non-recurring sources.

**General Public Services** - this covers expenditures for services which are indispensable to the existence of an organized state and cannot be allocated to specific sectors or subsectors. This includes executive and legislative services; overall financial and fiscal services; civil services; planning; conduct of foreign affairs; general research, public order and safety and centralized services.

**Grants** - all non-repayable transfers received from other levels of government or from private individuals, or institutions including reparations and gifts given for particular projects or programs, or for general budget support.

**Municipality** – is a political corporate body which is endowed with the facilities of a municipal corporation, exercised by and through the municipal government in conformity with law. It is a subsidiary of the province which consists of a number of barangays within its territorial boundaries, one of which is the seat of government found at the town proper (poblacion).

**Non-Tax Revenue** - revenue collected from sources other than compulsory tax levies. Includes those collected in exchange for direct services rendered by government agencies to the public, or those arising from the government's regulatory and investment activities.

**Province** - the largest unit in the political structure of the Philippines. It consists, in varying numbers, of municipalities and, in some cases, of component cities. Its functions and duties in relation to its component cities and municipalities are generally coordinative and supervisory.

**Public Sector** - consists of the National Government, local governments, government-owned or controlled corporations and government monetary institutions.

**Revenue -** a cash inflow which does not increase the liability of the government.

**Taxes on Property** - taxes imposed on the ownership of wealth or immovable properties and on the transfer of real or personal properties, both tangible and intangible.

Source: Department of Budget and Management

#### PUBLIC ORDER, SAFETY AND JUSTICE

**Crime** - is an act in violation of penal law. For statistical purposes, only crimes reported to authorities are covered.

**Index Crimes** - refer to those violations of the penal code considered to have socio-economic significance, and occur with sufficient regularity to be meaningful. These include crimes versus person (murder, homicide, physical injury and rape), and crimes versus property (robbery and theft).

Non-Index Crimes - refer to all other crimes not classified as index crimes. These are mostly composed of victimless offenses (Crimes against persons (parricide/infanticide, maltreatment, kidnapping); crimes against property (estafa and falsification, malicious mischief and damage to property); crimes against morals and order (prostitution, vagrancy, alarm and scandal, assault/resistance to authority, corruption of public official, gambling, slander and libel, threat and coercion and trespassing), crimes against chastity (abduction, seduction, lascivious acts) and other crimes (illegal possession of firearms, explosives and ammunition, concealment of deadly weapons, smuggling, carnapping and prohibited drugs)

**Crime Rate** - is the number of reported crimes per 100,000 population.

Crime Solution Efficiency - rate of crime solved over crime volume

**Policeman-to-Population Ratio** - is an indicator that measures the adequacy of the police force in its task of promoting peace and order, and of providing security to the people and property. It is computed by dividing the total population by the total number of policemen.

**Fireman-to-Population Ratio** - is an indicator that measures the adequacy of the firefighting manpower to safeguard the people and property. It is computed by dividing the total population by the total number of firemen.

#### SCIENCE AND TECHNOLOGY

#### Research and Development (R & D) Projects

- *Completed* projects completed at various stages of the R&D spectrum, namely: basic research, applied research, experimental development, and pilot testing.
- *Supported/Assisted* projects funded by DOST Councils or by DOST-Office of the Secretary (OSEC). These are projects given technical support by R & D Institutes.
- *Implemented* projects implemented by R & D performing institutes like Information Technology Development Institute (ITDI) and Food and Nutrition Research Institute (FNRI).

**UN-ASPA Five State of E-Government** – Standard set by United Nation-American Society for Public Administration with the following stages:

- **1 -** *Emerging web presence* sites serve as public information source; static information on the government is provided; Frequently Asked Questions (FAQs) may be found, and contact information is provided.
- **2 -** *Enhanced web presence* access to specific information that is regularly updated; a central government homepage may act as a portal to other department sites; useful documents may be downloaded or ordered online; and search features, e-mail and areas for comments are accessible.
- **3 -** *Interactive web presence* a national government website frequently acts as a portal; users can search specialized databases; forms can be downloaded and/or submitted online; and secure sites and passwords begin to emerge.
- **4 -** *Transactional web presence* users will be able to conduct complete and secure transactions online; the government website will allow users to customize a portal in order to directly access services based on specific needs and priorities; and sites will be ultimately secure.
- **5 -** *Fully integrated web presence* country provides all services and links through as single portal; no defined demarcation between various agencies and departments; and all transactional services offered by government will be available online.

**Neglect** - failure to provide, for reasons other than poverty, adequate food, clothing, shelter, basic education or medical care so as to seriously endanger the physical, mental, social and emotional growth and development of the child.

#### Rape - an act committed:

By a man who shall have carnal knowledge of a child under any of the following circumstances:

- through force, threat or intimidation;
- when the child is deprived of reason, or otherwise unconscious;
- by means of fraudulent machination or grave abuse of authority; and
- when the offended party is under 12 years of age or is demented, even though none of the circumstances mentioned above be present.

By any person who, under any of the circumstances mentioned in par. 1 hereof, shall commit an act of sexual assault by inserting the penis into a child's mouth or anal orifice, or any instrument, object, or any other part of the body such as fingers or toes into the genital or anal orifice of a child.

**Real Estate Mortgage** – a loan provided to members for the purchase of real estate property (titled residential lot) and/or construction/improvement of house, of which the property is subject for mortgage. (Home Development Mutual Fund)

**Trafficking in Women** - the act of recruiting and transporting a woman within and across national borders for work or services by means of violence or threat of violence, abuse of authority or dominant position, debt-bondage, deception or other forms of coercion.

#### **TOURISM**

**Accommodation Establishment\*** – any establishment, which on a regular basis, provides for a fee facilities for overnight stays as its main business. It includes not only hotels and similar traditional forms of accommodation but also non-traditional forms of accommodation such as resorts, tourist complexes, camping sites, youth hostels, private apartments, villas and furnished rooms in private houses, and the likes.

Occupancy\* - the sale of an available room in an accommodation establishment in a given day.

**Occupancy Rate\*** - the proportion of occupancy to available rooms in an accommodation establishment over a period of time.

**Resident\*\*\*** – an institutional unit is resident in a country when it has a center of economic interest in the economic territory of that country.

**Tourism\*\*\*** - Comprises the activities of persons traveling to and staying in places outside their usual environment for not more than one consecutive year for leisure, business and other purposes not related to the exercise of an activity remunerated from within the place visited.

Tourist\*\*\* - visitor who stays one or more nights in the place visited.

**Visitor\*\*\*** - any person traveling to a place other than that of his/her usual environment for less than 12 months and whose main purpose of trip is other than the exercise of an activity remunerated from within the place visited.

Visitor Arrivals – includes tourist, excursionists, aliens entering the country for a temporary stay not exceeding one year and for purposes other than immigration, permanent residence or employment for remuneration in the country and Filipino nationals residing permanently abroad on temporary stay in the Philippines not exceeding one year. This excludes the following: a) transit visitors and change-plan passengers who remain in the premises of the port of entry terminal; b) aliens with prearranged employment for remuneration in the Philippines, even if length of stay is less than 59 days; c) Filipinos living abroad, regardless of length of stay overseas who are not permanent residents abroad; d) immigrants or aliens with permanent residence in the Philippines; e) Filipino overseas contract workers on home visits; and f) returning residents of the Philippines.

#### TRANSPORTATION AND COMMUNICATIONS

**Mail** - dispatches of correspondence and other objects tendered by and intended for delivery by means of the postal service.

**Port** - a sheltered harbor where marine terminal facilities are provided, consisting of piers or wharves at which ships berth/dock while loading or unloading cargo, transit sheds and other storage areas where ships may discharge incoming cargo, and warehouses where goods may be stored for longer periods while awaiting distribution or sailing.

**Radio Stations** - one or more transmitters or receivers or a combination of transmitters and receivers including the accessory equipment, necessary at one location for carrying on a radio communication service. Each station shall be classified by the service in which it operates permanently or temporarily.

**Telephone Density** – the ratio of the number of telephones to total population at a given date. It is expressed as the number of telephone main stations per 100 persons.

#### VITAL, HEALTH AND NUTRITION

**Barangay Health Stations -** the primary health care facility at the barangay level where basic health services are delivered. (1998 Compendium of Social Statistics in the Philippines)

Child Mortality Rate (CMR)\*\*\*\*\* - the probability of dying between exact age one and age five, expressed as the number of deaths of children from exact age one to less than age five during a given period per 1,000 children surviving to age 12 months at the beginning of the period.

**Contraceptive Prevalence Rate (CPR)**\*\*\*\*\* - the proportion of currently married women in the reproductive ages of 15-49 years reporting current use of any contraceptive method.

**Hospital Bed-Population Ratio\*\*\*\*** - the ratio of hospital beds to the population, usually expressed as the number of available hospital beds for every 1,000 population.

**Incidence Rate (of a disease)\*\*\*\*\*** - the rate at which new cases of a disease occur in the population. The numerator is the number of new cases of a disease that occur during a given period (usually a year), and the denominator is the number of the population at risk of experiencing the disease during the same period, usually expressed as the number of new cases per 100,000 persons.

**Infant Mortality Rate (IMR)\*\*\*\*\*** – the probability of dying between birth and age one, expressed as the number of infant deaths or deaths occurring before reaching 12 months of life in a given period per 1,000 live births.

**Maternal Mortality Ratio (MMR)**\*\*\*\*\* - the ratio between the number of women who died (for reasons of pregnancy, childbirth and puerperium) to the number of reported livebirths in a given year, expressed as the number of maternal deaths per 100,000 live births

Morbidity\*\*\*\*\* - the frequency of disease and illness, injuries, and disabilities in a population.

**Under Five Mortality Rate (U5MR)\*\*\*\*\*** - the probability of dying between birth and age five, expressed as the number of deaths below age five per 1,000 live births during a given period.
