

## SPECIAL RELEASE

# Birth Statistics FEBRUARY 2024

Reference No. 2024-SR-022

Date of Release: 21 June 2024

This special release presents statistical data on births occurring for the month of February 2024 in the Province of Cavite. This publication shows the disaggregated data of live births by sex and by registration status down to city/municipal level. It also presents the total registered live births by nationality of father and mother, usual residence of the mother, and type of birth. The civil registry documents transmitted by the Local Civil Registry Offices (LCROs) to Cavite Provincial Office for machine processing served as the source of data in preparation of this publication.

# Births in Cavite

Table 1 shows that there were 4,424 registered live births in the Province of Cavite for the month of February 2024. Male births accounted for 51.0 percent or 2,259 of the total births while female births accounted for 49.0 percent or 2,165. Males were higher by 95 than females. Seven (7) cities and seven (7) municipalities recorded more male births than females. These were as follows: Cities of Bacoor, Carmona, Cavite, Dasmariñas, Imus, Tagaytay and Trece Martires and municipalities of General Emilio Aguinaldo, Kawit, Maragondon, Mendez, Naic, Silang and General Mariano Alvarez.

The City of Bacoor recorded the highest registered live births with 712 composed of 374 males and 338 females. This was followed by City of Dasmariñas and Trece Martires City with 670 and 560 registered live births, respectively. The least registered live births were recorded in Ternate 12, followed by Amadeo and Alfonso with 17 and 26 live births, respectively.

## Summary

The Province of Cavite had recorded a total of 4,424 live births for the month of February 2024. Male births were predominant in the province. Overall, males outnumbered females by 95. The highest number of registered births came from the City of Bacoor with 712 and the least came from Ternate with 12 live births only. Timely registered births were higher than late registered births. There were also more live births with Filipino parents than births with one (1) foreign parent. Majority of the mothers were residents of Cavite and among the types of birth, single was the most common.
