SPECIAL RELEASE

Birth Statistics JANUARY 2024

Reference No. 2024-SR-021
Date of Release: 21 June 2024

This special release presents statistical data on births occurring for the month of January 2024 in the Province of Cavite. This publication shows the disaggregated data of live births by sex and by registration status down to city/municipal level. It also presents the total registered live births by nationality of father and mother, usual residence of the mother, and type of birth. The civil registry documents transmitted by the Local Civil Registry Offices (LCROs) to Cavite Provincial Office for machine processing served as the source of data in preparation of this publication.

Births in Cavite

Table 1 shows that there were 5,222 registered live births in the Province of Cavite for the month of January 2024. Male births accounted for 51.0 percent or 2,664 of the total births while female births accounted for 49.0 percent or 2,558. Males were higher by 106 than females. Five (5) cities and ten (10) municipalities recorded more male births than females. These were as follows: Cities of Bacoor, Carmona, Dasmariñas, Imus, and Tagaytay City and municipalities of Alfonso, General Emilio Aguinaldo, Indang, Kawit, Magallanes, Mendez, Naic, Noveleta, Rosario and Tanza. The same number of male and female births were recorded in Amadeo.

The City of Bacoor recorded the highest registered live births with 871 composed of 446 males and 425 females. This was followed by City of Dasmariñas and Trece Martires City with 830 and 694 registered live births, respectively. The least registered live births were recorded in Alfonso with 15, followed by Amadeo and Ternate with 18 and 20 live births, respectively.

Summary

The Province of Cavite had recorded a total of 5,222 live births for the month of January 2024. Male births were predominant in the province. Overall, males outnumbered females by 106. The highest number of registered births came from the City of Bacoor with 871 and the least came from Alfonso with 15 live births only. Timely registered births were higher than late registered births. There were also more live births with Filipino parents than births with one (1) foreign parent. Majority of the mothers were residents of Cavite and among the types of birth, single was the most common.
