

SPECIAL RELEASE

Birth Statistics JULY 2024

Reference No. 2024-SR-034

Date of Release: 30 September 2024

This special release presents statistical data on births occurring for the month of July 2024 in the Province of Cavite. This publication shows the disaggregated data of live births by sex and by registration status down to city/municipal level. It also presents the total registered live births by nationality of father and mother, usual residence of the mother, and type of birth. The civil registry documents transmitted by the Local Civil Registry Offices (LCROs) to Cavite Provincial Office for machine processing served as the source of data in preparation of this publication.

Births in Cavite

Table 1 shows that there were 4,389 registered live births in the Province of Cavite for the month of July 2024. Male births accounted for 52.1 percent or 2,285 of the total births while female births accounted for 47.9 percent or 2,104. Males were higher by 181 than females. Six (6) cities and six (6) municipalities recorded more male than female births. These were as follows: City of Bacoor, City of Carmona, City of Dasmariñas, City of General Trias, City of Imus, and Trece Martires City and municipalities of Amadeo, General Emilio Aguinaldo, Kawit, Silang, Tanza and Ternate. The same number of female and male births were recorded in Alfonso, Cavite City and Rosario.

The City of Dasmariñas recorded the highest registered live births with 740 total registered births. This was followed by City of Bacoor and Trece Martires City with 670 and 653 registered live births, respectively. The least registered live births were recorded in Ternate with 14, followed by Magallanes with 16. Alfonso and General Emilio Aguinaldo both recorded 20 registered live births.

Summary

The Province of Cavite had recorded a total of 4,389 live births for the month of July 2024. Male births were predominant in the province. Overall, males (2,285) outnumbered females (2,104) by 181. The highest number of registered births came from City of Dasmariñas with 740 and the least came from Ternate with 14 live births only. Timely registered births were higher than late registered births. There were also more live births with Filipino mothers and fathers than births with foreign fathers and mothers. Majority of the mothers were residents of Cavite and among the types of birth, single was the most common.
