

SPECIAL RELEASE

Birth Statistics MAY 2024

Reference No. 2024-SR-027
Date of Release: 19 August 2024

This special release presents statistical data on births occurring for the month of May 2024 in the Province of Cavite. This publication shows the disaggregated data of live births by sex and by registration status down to city/municipal level. It also presents the total registered live births by nationality of father and mother, usual residence of the mother, and type of birth. The civil registry documents transmitted by the Local Civil Registry Offices (LCROs) to Cavite Provincial Office for machine processing served as the source of data in preparation of this publication.

Births in Cavite

Table 1 shows that there were 4,751 registered live births in the Province of Cavite for the month of May 2024. Male births accounted for 49.5 percent or 2,354 of the total births while female births accounted for 50.6 percent or 2,397. Females were higher by 43 than males. Four (4) cities and 11 municipalities recorded more female than male births. These were as follows: Cities of Bacoor and Imus, Tagaytay City and Trece Martires City and municipalities of Amadeo, General Emilio Aguinaldo, Kawit, Magallanes, Mendez, Naic, Silang, Tanza, Ternate and General Mariano Alvarez. The same number of female and male births were recorded in Alfonso, Noveleta and Rosario.

The City of Bacoor recorded the highest registered live births with 726 composed of 356 males and 370 females. This was followed by Dasmariñas and Trece Martires City with 698 and 649 registered live births, respectively. The least registered live births were recorded in Ternate with 11, followed by Amadeo and Magallanes, both with 15 registered live births.

Summary

The Province of Cavite had recorded a total of 4,251 live births for the month of May 2024. Female births were predominant in the province. Among the 23 cities / municipalities, 14 recorded higher female births than male births; three (3) municipalities recorded the same number of male and female births. Overall, females (2,397) outnumbered males (2,354) by 43. The highest number of registered births came from the City of Bacoor with 726 and the least came from Ternate with 11 live births only. Timely registered births were higher than late registered births. There were also more live births with Filipino mothers and fathers than births with foreign fathers and mothers. Majority of the mothers were residents of Cavite and among the types of birth, single was the most common.
