

PRESS RELEASE

2023 Community-Based Monitoring System Data Turnover Ceremony of the Municipality of Taysan

Date of Release : 27 April 2024
Reference No. : 2024-010

Turnover of 2023 CBMS Data. From left, DPO Ma. Fatima Breiz, MPDC Engr. Bienvenido Breiz, Municipal Vice Mayor Luis Favorito, Municipal Mayor Edilberto Abaday, CSS Raul Maximo B. Tolentino, and SSS Charity O. Bautista

The Municipality of Taysan successfully received their 2023 Community-Based Monitoring System (CBMS) data through the Data Turnover Ceremony (DTC) conducted on April 26, 2024. This noteworthy accomplishment was made possible by the collaborative efforts between the Philippine Statistics Authority (PSA)-Batangas and the Municipality of Taysan.

The significant event was spearheaded by the Chief Statistical Specialist of PSA Batangas, Mr. Raul Maximo B. Tolentino. Present at the aforementioned activity are the Supervising Statistical Specialist of Statistical Operations and Coordination Division of RSSO 04A CALABARZON, Ms. Charity O. Bautista, Municipal Mayor Edilberto Abaday, and the Municipal Government of Taysan's officials and staff.

With localized data readily available, Hon. Abaday conveyed to his acceptance message that through CBMS, they now have updated and disaggregated data that illustrates each community member's living situation. It will considerably aid the local government in making strong, evidence-based policies and decisions for equitable governance for their constituents.

For additional information, visit the official website (<https://psa.gov.ph/>) or like and follow the official Facebook page of PSA (<https://www.facebook.com/PSABatangas10>)

RAUL MAXIMO B. TOLENTINO
