

## SPECIAL RELEASE

# Birth Statistics OCTOBER 2023

Reference No. 2024-SR-008  
Date of Release: 08 April 2024

This special release presents statistical data on births occurring for the month of October 2023 in the Province of Cavite. This publication shows the disaggregated data of live births by sex and by registration status down to city/municipal level. It also presents the total registered live births by nationality of father and mother, usual residence of the mother, and type of birth. The civil registry documents transmitted by the Local Civil Registry Offices (LCROs) to Cavite Provincial Office for machine processing served as the source of data in preparation of this publication.

# Births in Cavite

Table 1 shows that there were 5,216 registered live births in the Province of Cavite for the month of October 2023. Male births accounted for 50.8% or 2,651 of the total births while female births accounted for 49.2% or 2,565. Males were higher by 86 than females. Seven (7) cities and six (6) municipalities recorded more male births than females. These were as follows: City of Bacoor, City of Carmona, Cavite City, City of Dasmariñas, City of General Trias, City of Imus and Trece Martires City and municipalities of Alfonso, Indang, Kawit, Silang, Ternate, and General Mariano Alvarez. The same number of male and female births were recorded in Magallanes and Mendez.

The City of Dasmariñas recorded the highest registered live births with 896 composed of 449 males and 447 females. This was followed by City of Bacoor and Trece Martires City with 821 and 725 registered live births, respectively. The least registered live births were recorded in Ternate with 13, followed by Alfonso and Amadeo with 18 and 21 live births, respectively.

## Summary

The Province of Cavite had recorded a total of 5,216 live births for the month of October 2023. Male births were predominant in most cities/municipalities. Overall, males outnumbered females by 86. The highest number of registered births came from the City of Dasmariñas with 896 and the least came from Ternate with 13 live births only. Timely registered births were higher than late registered births. There were also more live births with Filipino parents than births with 1 foreign parent. Majority of the mothers were residents of Cavite and among the types of birth, single was the most common.
