## SPECIAL RELEASE

# Death Statistics

## MARCH 2024

Reference No. 2024-SR-041

Date of Release: 18 November 2024

Statistics on deaths that occurred in the Province of Cavite during the month of March 2024 are provided in this special release. This document has been divided down into city/municipal level data disaggregated by sex and registration status. Also, it displays the total number of deaths registered whether infant or fetal death. The data used to prepare this publication was obtained from the civil registration documents in which the Local Civil registration Offices (LCROs) submitted to the Cavite Provincial Statistical Office for evaluating, editing and undergo into machine processing.

# Deaths in Cavite

Table 1 shows that the Province of Cavite recorded 1,594 deaths for the month of March 2024. A total of 885 men and 709 women died during the month. Compared to female deaths, male deaths were higher by 176. Relatively, majority of the cities and municipalities reported more male deaths than female deaths except for Alfonso with 7 male deaths and 9 female deaths, Cavite City with 23 male deaths and 25 female deaths, General Mariano Alvarez with 26 male deaths and 32 female deaths, Mendez with 9 male deaths and 10 female deaths and Trece Martires City with 35 male deaths and 41 female deaths. However, number of deaths for both men and women reported thirteen (13) each in City of Carmona.

Furthermore, the most reported deaths in Cavite were recorded in the City of Dasmariñas with 258, followed by the City of Bacoor with 180 and City of Imus with 152.

Table 3 showed the Types of Deaths registered in the province of Cavite for the month of March 2024. The number of deaths reported for Infant was 44 or 2.76 percent of the total registered deaths. This type of death refers to the death of the infant between 1 day to 1 year of age. However, 25 or 1.57 percent recorded for fetal death. This type of death is considered for the fetus that had intra-uterine life of less than seven months and died within 24 hours after its complete delivery from the maternal womb. No record of death reported for maternal. This type of death defines as the death of a pregnant mother due to complications related to pregnancy.

Furthermore, in terms of type of death, most reported in the province were recorded in Trece Martires City with a total of 12 for Infant and 9 for Fetal.

Moreover, City of Dasmariñas registered the highest number of death with 294, followed by City of Bacoor and City of Imus with 198 and 162 deaths, respectively. The least number of registered deaths were in the municipality of Gen. Emilio Aguinaldo with a total of five (5).
