SPECIAL RELEASE

Death Statistics

MAY 2024

Reference No. 2024-SR-043

Date of Release: 18 November 2024

Statistics on deaths that occurred in the Province of Cavite during the month of May 2024 are provided in this special release. This document has been divided down into city/municipal level data disaggregated by sex and registration status. Also, it displays the total number of deaths registered whether infant or fetal death. The data used to prepare this publication was obtained from the civil registration documents in which the Local Civil registration Offices (LCROs) submitted to the Cavite Provincial Statistical Office for evaluating, editing and undergo into machine processing.

Deaths in Cavite

Table 1 shows that the Province of Cavite recorded 2,171 deaths for the month of May 2024. A total of 1,177 men and 994 women died during the month. Compared to female deaths, male deaths were higher by 183. Relatively, majority of the cities and municipalities reported more male deaths than female deaths except for City of Carmona with 19 male deaths and 25 female deaths, Cavite City with 25 male deaths and 40 female deaths, General Emilio Aguinaldo with 5 male deaths and 9 female deaths and Kawit with 25 male deaths and 38 female deaths. However, number of deaths for both men and women reported eleven (11) each in Maragondon and sixteen (16) each in Mendez.

Furthermore, the most reported deaths in Cavite were recorded in the City of Dasmariñas with 350, followed by the City of Bacoor with 269 and City of Imus with 222.
